A Beer Clean® Glassware Cleaner

For sparkling clean glassware and better tasting beer. Powdered compound cleans in hot, cold, hard or soft water. Concentrated formula for quick cleaning. Odorless detergent system provides excellent rinsing results. Minimal sudsing. Two formulas: Regular for manual brush cleaning and Low Suds for use with electric brushes. ½-oz. pouch. 100 pouches per case.

No.	Description	Case
DRK 90221	Regular	38.98
DRK 90224	Low Suds	38.98

B Beer Clean® Last Rinse Sanitizer

Powdered compound contains trichloromelamine (TCM) for effective sanitization of all bar glassware. Laboratory tested—kills E. coli and staph germs. Delivers 100 ppm available chlorine. Formulated for cold or hot water. Accepted by breweries throughout North America. Includes test strips. EPA Registered. ½-oz. pouch. 100 pouches per case.

DRK 90223	Case	41.60
-----------	-------------	--------------

C Mr. Muscle® Fryer Boil-Out

Low-foaming formula degreases and cleans foodservice fryers, while preventing boil-over. Heat and chemical action combine to penetrate, emulsify and clean away built-up grease. Eliminates need for neutralizing. Noncorrosive. Contains no phosphates. 2-oz. packet. 36 packets per case.

DRK 91209	Case	70.36
-----------	-------------	--------------

3M

D 3M™ Shortening Monitor Kit

Easy-to-use, inexpensive way to help control quality of fried foods. Eliminates guesswork and prevents premature disposal of shortening. Dip into shortening at operating temperature; the change in color bands indicates status of shortening breakdown by measuring free fatty acid concentrations. 40 test strips and one storage bottle per kit; 10 kits per case.

MCO 1010	Case	340.16
----------	-------------	---------------

Ensure your bar glasses are “beer clean” with the three-sink cleaning system. Simply follow these steps:

1. Empty used glasses into an open drain and pre-rinse them to remove any leftover alcohol and foam. This keeps your cleaning solution from becoming diluted.
2. Wash the glasses in the first sink, filled with a mixture of water and a solution of odorless, low-sudsing, non-fat cleaning compound. Use a nylon, three-spindled bristle brush to thoroughly scrub all surfaces.
3. In the second sink, rinse the glasses in fresh, clean water. Put the bottom of the glass in the water first and take the glass out bottom up (the “heel in, heel out” method) for a complete rinse.
4. Fill the third sink with a sanitizing solution and use the “heel in, heel out” method to rinse the glasses. Let them dry on a stainless steel wire rack or free-draining plastic surface for odor-free drying.

FYI

FYI Josephine Garis Cochrane of Shelbyville, Illinois was the inventor of the first practical dishwasher. According to the U.S. Patent and Trade Office, Cochrane received the patent for her invention in December of 1886. Seven years later, she displayed the dishwasher at the 1893 Chicago World's Fair. At that time, only the hospitality and restaurant industries showed interest. Dishwashers did not become a popular household appliance until the 1950s.

NEW

FYI Mold and mildew control is an important part of building maintenance. Not only does mold destroy building materials and furnishings, it also presents a potential health risk.

Cause of Mold Growth: Mold requires moisture for growth. When mold spores land in a damp area, they begin growing by digesting the surface on which they've landed. Any source of moisture—from damp bathrooms to localized flooding—can lead to mold growth.

Health Risks of Mold Exposure: Molds produce allergens and irritants that may cause unpleasant reactions in humans. Symptoms include headaches, breathing difficulties, skin and eye irritation, allergic reactions and aggravation of asthma symptoms.

Mold Prevention & Cleaning: The key to preventing mold growth is moisture control. Fix leaks and other water problems as soon as possible, and dry the affected area completely. Any large-scale mold problems will require professional assistance. For light mildew and mold problems, use a high-quality cleaning product and scrub all stained, soiled, damp and moldy surfaces to kill mold and prevent its re-growth.
