Fun fact...

In 1953, Norm Larsen, an employee of the Rocket Chemical Company, developed WD-40® to eliminate water and prevent corrosion on electrical circuitry. Larsen developed the formula on his 40th attempt, thus the name WD-40 for "Water Displacement 40th" attempt.

FVI "Lord Byron Was Here." It might sound unbelievable, but graffiti has a long history that dates back to ancient times. In ancient Greece, the Roman Empire, Mayan cities and elsewhere, graffiti was scratched or carved into rocks, boulders, monuments and walls. Not so different from modern-day vandalism, this earliest graffiti consisted of advertisements, curses, declarations of love, political slogans, markings by soldiers, murals, etc. Although this graffiti defaced and vandalized property of the time, it is a great historical resource for understanding ancient society.
