

Clorox Professional

READYMOP® MOPPING SYSTEM

- All-in-one system is easy to use—no bucket, no water, no mess
- Specially formulated advanced floor cleaner is safe on finished and laminate wood floors
- Get sparkling floors in half the time

Trigger controls the amount of cleaner used. Disposable, hygienic cleaning pad eliminates dirty liquid from your floor. Requires no rinsing and dries fast. Swivel head provides maneuverability.

A ReadyMop® Starter Kit

Each kit includes one mop, one 24-oz. Advanced Floor Cleaner and eight absorbent cleaning pads. Refill pads CLO 14901 and cleaner CLO 14902 sold separately. 4 kits per case. CLO 14903

Case 97.18

B ReadyMop® Absorbent Cleaning Pads

Each pad cleans 100-150 sq. ft. After use, simply throw it away. Use with ReadyMop® Mopping System CLO 14903 (sold separately). 8 pads per pack; 12 packs per case. CLO 14901

Case 67.64

ReadyMop® Mopping System includes everything you need to clean your floors...all in one box!

Steel handle and head with quick-loading latch style swing-away bar. 1 1/8" dia. 63 1/2" overall length.

IMP 837 **Each 19.98**

Invented by...

Thomas Stewart invented the clamping mop that could wring out water with a lever on June 11, 1893. Cleaning floors had always meant scrubbing them on your hands and knees using scrub brushes and rags. Thomas Stewart envisioned an easier, less painful way. Using a cloth connected to a stick handle and held in place by a metal clasp, Stewart presented the world with the first mop.

WAVE BRAKE®

Reduces Splashing

WAVEBRAKE® MOPPING COMBOS

Work Safer, Cleaner, Smarter

The WaveBrake® Mop Bucket and Wringer System reduces splashing, which means a safer environment, cleaner floors, and improved productivity. This revolutionary bucket shape, inhibits wave formation and greatly reduces splashing under typical usage.

High Efficiency Wringer

Wring mops with 18% less effort. The WaveBrake® Wringer System, made from Structural Web molded plastic, lasts 58 times longer than comparative wringers*.

*Tested to exceed 50,000 wringing cycles. Average injection molded wringers perform approximately 860 cycles.

The Structural Web Advantage

Rubbermaid Commercial Products is the industry leader in Structural Web molding. Structural Web is the method of choice for equipment that must withstand impact and torque. Structural Web mopping equipment has great impact resistance, strength, and a smooth surface.

Dirty Water Bucket (Optional)

The Dirty Water Bucket separates dirty water from clean water by nesting below the WaveBrake® Wringer to collect the dirty water while preserving the quality and cleaning power of the cleaning solution.

*Don't
make
waves!*

"Bucket-in-bucket" design separates clean and dirty water.

D

Rubbermaid Commercial Products

WAVEBRAKE® MOPPING SYSTEM

Promote a safer workplace. The patented, molded-in WaveBake® inhibits wave formation, which reduces splashing by 40%. Buckets stack, even with the wheels attached, for more efficient storage. Tested to exceed 50,000 cycles, the wringers are more than twice as durable. 30° handle bend is easier on the user's wrist and shoulder.

WaveBake® Mopping Trolleys

Improve productivity with this compact janitor's cart and mopping combo, all in one. Trolley handle for easy transport and storage of safety sign and lobby dust pan (with optional hanger, RCP 2535, available as special order only). Removable maid caddy for two spray bottles and cleaning supplies. Accommodates a 13-gal. poly liner for waste collection. Our Quiet Caster Dolly makes less than one-tenth the noise of a traditional mop bucket. System also includes "bucket-in-bucket" design to separate clean and dirty water and an additional accessory bucket for extra cleaning solution or waste collection. Bucket capacity: 35 qt. Wringer capacity: up to 32-oz. mops.

WaveBake® Dual-Water Combos

Reduces cross-contamination: Unique "bucket-in-bucket" design separates clean and dirty water, which reduces cross-contamination potential and leaves a cleaner, less slippery floor. Generating less than one-tenth the noise of a traditional mop bucket, the Quiet Caster Dolly allows you to work quietly in noise-sensitive environments, day or night. Bucket capacity: 35 qt. Wringer capacity: up to 32-oz. mops.

C WaveBrake® Color-Coded Combos

Three distinct colors to help organize cleaning equipment. 35-quart capacity bucket. High-efficiency sideward pressure wringer is tested to exceed 25,000 wringing cycles. Buckets nest, even with casters attached, to save space. Mop handle secures during transport, preventing damage to walls. Nonmarking casters. Constructed of tubular steel and structural web molded plastic. For up to 32-oz. mop heads. Matching color-coded mop handles sold separately.

No.	Description	Each
RCP 7588-88 BLU	Blue (Lobbies, Entrances, Hallways)	142.64
RCP 7588-88 RED	Red (Restrooms)	142.64
RCP 7588-88 GRE	Green (Kitchens)	142.64

FYI

Proper care of your bucket/wringer combo will directly influence its working condition. Follow these simple tips to extend the life of your cleaning equipment:

- Do not use force on a wringer lever. Use only enough hand pressure to wring out the mop.
- Remove any loose mop head yarn or string that is tangled in the wringer.
- Rinse the blade in clean water after use.
- Always wash the bucket with a disinfectant after use. Rinse with warm water and wipe dry.
- Keep wringer oiled and tight.
- When the wringer is not being used, keep it in "release" position.

Fits Dirty Water Bucket (sold separately).

Foot pedal water evacuation—no lifting required!

Fits Dirty Water Bucket (sold separately).

Rubbermaid Commercial Products

WAVEBRAKE® MOPPING SYSTEM

Patented design features molded-in wave baffles that reduce wave motion, resulting in 40% less splashing. Less splashing and spilling means safer, cleaner, more efficient mopping.

WaveBrake® High-Capacity Foot-Activated Combos

Large target area facilitates faster and more efficient mopping for commercial cleaning jobs. 44-quart bucket. Heavy-duty, ergonomic wringer is designed to last over 50,000 cycles. Convenient foot pedal water evacuation—no lifting required. Mop handle secures during transport, preventing damage to walls. Accepts RCP 9C74 Dirty Water Bucket (sold separately). Nonmarking 3" casters. Constructed of tubular steel and structural web molded plastic. Yellow. For 16-32-oz. mop heads.

WaveBreak® Mop Wringers

High-efficiency wringer lasts 29 times longer than comparable wringers; tested to exceed 25,000 wringing cycles. Ergonomic handle reduces stress on wrist. Constructed of tubular steel and structural web molded plastic. Yellow. Use with WaveBreak® Bucket RCP 7570-88 YEL and Dirty Water Bucket RCP 9C74 RED (sold separately) to create a complete mopping system.

No.	Description	Each
RCP 7575-88 YEL	Downward Pressure	152.38
RCP 6127-88 YEL	Sideward Pressure	95.96

D Dirty Water Bucket for WaveBreak® Combos

Wring dirt, grease and grime into the separate dirty water bucket instead of back into your cleaning solution. Cleaning solution stays cleaner, leaving floors less slippery. 18-quart capacity bucket. For up to 32-oz. mop heads. Structural web molded plastic construction. Red. Use with WaveBreak® Wringers RCP 7575-88 YEL/RCP 6127-88 YEL and Bucket RCP 7570-88 YEL (sold separately) to create a complete mopping system.

RCP 9C74 RED **Each 27.00**

According to the National Floor Safety Institute, slip, trip and fall accidents cost U.S. businesses over \$100,000 per lawsuit each year. Typically, wringers release dirty water from the mop back into a bucket's primary cleaning water. When dirty water is reused during floor cleaning, floors can become slippery and less clean. Using a Rubbermaid® Dirty Water Bucket can help reduce the risk of slip and fall accidents. The Dirty Water Bucket fits below the WaveBreak® Wringer to collect dirty water, keeping it separate from the clean water. This separation preserves the quality and power of cleaning solution and reduces the risk of cross-contamination, resulting in cleaner, less slippery floors.
