Fun fact...

The most widely known African American wedding tradition is "jumping the broom." The tradition symbolizes the sweeping away of the old and the welcoming of the new. It was started in southern colonies of the United States during the days of slavery. Marriage for field hands was uneconomical and prohibited, but for house and yard servants and for artisans it was sometimes permitted, although without legal sanction.

FYI

The Industry Standard

All floor pads are not created equally

The differences between floor pads may seem small. But when added up, they can make a big difference to your bottom line in terms of productivity and labor costs.

3M™ Floor Pads offer:

- Uniform distribution of mineral abrasives throughout the pad (not just on the surface) assures superior performance and long, useful life.
- Individually separated and coated fibers help produce better, more consistent results.
- The right amount of aggressiveness for every type of stripping, scrubbing, cleaning and burnishing job.
- Each floor pad is engineered specifically for a particular maintenance task.

For more information visit www.3M.com/commcare

A person wearing light-colored pants and white sneakers is operating a large, dark-colored floor machine on a carpeted floor. The machine is positioned in the foreground, and the person's legs and feet are visible in the background. The entire image has a yellowish tint.
