Cost Effective Recycling & Waste Sortation

TRIPLE CAPACITY CART

Maximum Capacity and Minimum Footprint

Three large bags provide an industry-high collection capacity equivalent to 100 gallons. Deep 34-gallon bags, with zippered side access, provide the industry's best load-to-footprint ratio. The compact footprint allows for excellent maneuverability and storage.

For Recycling, Waste or Linen Sortation

The 9T92 Triple Capacity Cart encourages environmental sustainability by facilitating "best practices" in sortation and recycling. Pre-sorting materials improves efficiency, promotes worker productivity and helps facilitate your "green" initiative.

Sort and Transport Up To 7 Streams

Meeting the evolving needs in the janitorial environment, the 9T92 Triple Capacity Cart now offers the ability to transport three streams of sorted materials, with the option to add accessories increasing the cart to seven different streams.

Durable and Sleek – Fits Any Environment

The all plastic and aluminum construction delivers a rust-proof cleaning cart, ensuring long-lasting quality and durability, even in the harshest environments. Rubbermaid's most innovative cart accessories work in tandem with the new 9T92 Triple Capacity Cart.
